Thank-you for taking the time to evaluate my Storage Auction Secrets book.

When I first started with storage unit auctions, there wasn't much information available. I was pretty much on my own to learn the ropes.

You're going to be in a much better position though. With my book "Storage Auction Secrets" you're going learn the inside techniques to getting items for the best price (usually for pennies on the dollar) - and how you can resell them off-line or online for a massive profit!

I know you will be delighted with the information in "Storage Auction Secrets" so I give you 45 days (that's a full 6 weeks) to test it out for yourself. If you decide within 45 days that "Storage Auction Secrets" is not for you, you can return it for a full refund.

You can even keep the bonus items as my "thank-you" for trying the book out. The bonuses detailed on my website at www.storageauctionsecrets are worth \$124.65, so even if you decide to ask for your money back, you'll be \$124.65 ahead just for trying my book.

Below is the Table of Contents for the book so you can see just how much information is packed into the 92 pages of the book! If you have any questions feel free to email me at blaine@storageauctionsecrets.com.

Yours in success,

Blaine Herbst
